

Category:Histology

Pages in category "Histology"

The following 200 pages are in this category, out of 531 total.

(previous page) (next page)

A

- Abdominal skin/histological specimen
- Absorptive epithelium
- Accessory sex glands
- Acrosome reaction
- Actin
- Adipose tissue
- Adipose tissue (histology slide)
- Adrenal gland (image)
- Adrenal gland (slide)
- Adrenal gland - AZAN
- Adrenal gland - HE
- Adrenal gland, detail (image)
- Adrenal glands (histology)
- Alveolo-Capillary Membrane
- Amnion
- Antral follicle
- Aorta (histological slide)
- Aorta (preparation)
- Aorta - RF
- Apocrine glands
- Appendix (HE)
- Appendix (SFLT)
- Appendix, detail (image)
- APUD system
- Artery (green trichrome)
- Artery (histological slide, GrT)
- Articular cartilage (slide)
- Articular cartilage - HE
- Astroblast
- Autolysis
- Autonomic Ganglion
- Autonomic ganglion (histology)
- Axilla /histology slide
- Axilla HE
- Axon
- AZAN

B

- B - Lymphocytes
- Bacterial Endocarditis (histological slide)
- Basal cells
- Basal lamina
- Basic Staining Methods
- Billroth cord
- Binders
- Biological membrane
- Biological Membrane
- Biomechanics
- Biomechanics of muscle contraction
- Biopsy
- Blood
- Blood cells (slide)
- Blood count
- Blood Plasma
- Blood vessels
- Blood-brain barrier
- Body hair and hair
- Bone
- Bone marrow
- Bone structure and development

- Bone structure and remodeling
- Bronchi (histology)
- Bronchioles
- Bronchus (histology)
- Bronchus HE
- Bronchus Segmentalis (histological specimen)
- Bronchus segmentalis HE
- Bronchus segmentalis SFLT
- Brown adipose tissue - HE
- Brown fat (slide)
- Brush cells
- Bulbus oculi (SFLT)
- Bulbus oculi HE

C

- Capillary
- Capsula fibrosa
- Cardia (histological slide)
- Cardiac muscle - HE
- Cardiac muscle - HH
- Cardiac muscle - picture
- Cardiomyocyte
- Cartilage
- Cell
- Cell junctions
- Cell nucleus
- Cell production system
- Cell surface specialization
- Cells of Liver
- Cellular inclusions
- Cementum
- Cerebellum (histology)
- Cerebellum (preparation)
- Cerebellum (SFLT)
- Cerebral cortex (SFLT)
- Cerebrum (myelin)
- Cerebrum - HE
- Chondrocyte
- Chondrogenic and desmogenic ossification (practicum) (1st Faculty of Medicine UK)
- Chorion
- Chorion frondosum (HE)
- Chorion frondosum (SFLT)
- Ciliated cells
- Circulatory system
- Clara's cells
- Classification of Receptors
- Collagen
- Collection of material for histological examination
- Colon (image)
- Colon (SFLT)
- Colon - HE
- Colorectal cancer
- Colorectal cancer/pathology
- Congo red
- Construction of the lip
- Cornea
- Corpus luteum - HE
- Cyclical changes in the female body
- Cytoarchitectonics of the brain cortex
- Cytocenter
- Cytokeratin
- Cytological staining
- Cytoskeleton

D

- Decidua
- Degradative system of the cell
- Dendrite
- Dentinal tubules
- Dentinum
- Desmogenous ossification
- Dorsum linguae (image)
- Dorsum of tongue (SFLT)

- Dorsum of tongue - HE
- Ductus deferens (image)
- Ductus deferens (SFLT)
- Ductus deferens HE
- Ductus omphaloentericus
- Duodenum (image)
- Duodenum (SFLT)
- Duodenum HE

E

- Eccrine sweat glands
- Elastic artery (histological slide)
- Elastic artery (SFLT)
- Elastic artery HE
- Elastic artery WRF
- Elastic cartilage (image)
- Embryonic Development of Muscles
- Enamel
- Endocardium
- Endocytosis
- Endoplasmic Reticulum
- Endoplasmic reticulum
- Endost
- Energy system of the cell
- Enterocyte
- Eosinophilic granulocyte
- Epicardium
- Epididymis
- Epididymis (image)
- Epididymis - HE
- Epiglottis (SFLT)
- Epiglottis (slide)
- Epiglottis - HE
- Epiglottis - RF
- Epiphysis
- Epithelium
- Epithelium (Pathobiochemistry)
- Erythropoiesis
- Esophagus
- Esophagus (image)
- Esophagus (slide)
- Esophagus - HE
- Esophagus, detail (image)
- Excretory ducts in the male reproductive system
- Eye (histology)

F

- Facial development
- Female genital system (histology)
- Female reproductive system
- Fetal lung (histological slide)
- Fetal Lung (SFLT)
- Fetal lung / Fetal lung
- Fetal membranes (SFLT)
- Fetal membranes - HE
- Fibrae dentini
- Fundus (histological preparation)
- Funiculus spermaticus (image)
- Funiculus spermaticus (SFLT)
- Funiculus spermaticus - HE

G

- Gallbladder
- Gametogenesis (gametocytogenesis)
- Gametogenesis procedure
- Gametogeneze
- Gaster - cardia (SFLT)
- Gaster - fundus (SFLT)
- General anatomy of the lymphatic system
- General microscopy principles
- General structure of nervous tissue
- General structure of the alimentary canal

- General structure of the alimentary canal
- GER (guidepost)
- Giemsa stain
- Gl. sublingualis (SFLT)
- Gl. submandibularis (SFLT)
- Glandula parathyroidea (histological slide)
- Glandula parathyroidea (SFLT)
- Glandula parathyroidea - HE
- Glandula parotis (image)
