

Category:Pathophysiology

Pages in category "Pathophysiology"

The following 200 pages are in this category, out of 443 total.

(previous page) (next page)

A

- ABB/Questions and Case Studies
- Abdominal Pain
- ABR / Questions and case studies
- Acid-Base balance
- Acid-base balance disorders
- Acidosis (signpost)
- Acquired aplastic anemia
- Acute autoimmune thrombocytopenic purpura
- Acute inflammation
- Acute mountain disease
- Acute mountain sickness
- Acute pancreatic necrosis
- Acute Phase Reactants
- Acute renal failure / Repetitorium
- Acute respiratory distress syndrome
- Acute Tubular Necrosis
- Addison's disease
- Adrenal glands
- Alkalosis (signpost)
- Allergic professional diseases of the airways and lungs
- Alport's syndrome
- Anaemia
- Anemia of chronic diseases
- Angina pectoris
- Angiogenesis and neovascularization (disambiguation)
- Angiotensin II receptor blockers
- Anoxemia
- Antithrombotics
- Antitrombin III
- Aortic regurgitation
- APC resistance
- Apoptosis
- Apraxia
- Arterial dysfunction/Repetitorium
- Arteriovenous fistula
- Ascites
- Asphyxia
- Atelectasis
- Atrial Fibrillation
- Atrial fibrillation
- Atrial flutter
- Autoimmune diseases

B

- Balbuties
- Bartter syndrome
- Beriberi
- Bilirubin - Questions and Casuistry
- Biology of oncogenesis
- Blast Syndrome
- Blood Cell Examination
- Blood clotting examination
- Blood count
- Blood Groups
- Blood pressure measurment
- Bradyarrhythmia
- Bradyarrhythmias and Bundle branch blockages
- Bronchial obstruction/Repetitorium
- Brugada syndrome
- Bruch's disease

- Budd-Chiari Syndrome
- Buffering systems
- Burn shock

C

- C-reactive protein
- Caisson disease
- Calcium phosphate metabolism
- Capillary function disorders/Repetitorium
- Carbohydrates in food
- Carbohydrates in the diet
- Carboxyhemoglobin
- Cardiac inhibitors
- Cardiac tamponade (pediatrics)
- Cardiac tamponade (pediatry)
- Cardiogenic shock (CS)
- Cardiogenic shock (pediatrics)
- Cardioinhibitors
- Cardiotonics
- Cause of disease
- Cause of illness
- Cerebral-induced salt loss syndrome
- Changes in Serum Protein Levels
- Chromosomal instability syndromes
- Chromosome instability syndromes
- Chronic bronchitis
- Chronic Pancreatitis
- Circulatory collapse
- Circulatory shock
- Circulatory shock/Repetitorium
- Classification of shock (pediatrics)
- Clinical signs of shock (pediatrics)
- Cobalt
- Cold injury
- Colorectal cancer
- Colorectal carcinoma/etiology
- Combined disorders of acid-base balance
- Congenital adrenal hyperplasia
- Congenital disorders of phenylalanine metabolism
- Congenital heart defects/Repetitorium
- Congenital thrombophilia
- Cor pulmonale
- Corpuscular hemolytic anemia
- Correction and compensation of acid-base balance disorders
- Correction and compensation of acid-base imbalances
- Cortisol
- Cretinismus
- Cretinism
- Crohn's disease/etiopathogenesis
- Crush syndrome
- Cushing's syndrome
- Cyanosis (pathophysiology)

D

- D-dimer
- Deafness
- Defensive breathing reflexes
- Defensive breathing reflexes/Repetitorium
- Denervation hypersensitivity
- Dental caries
- Determination of cardiac output
- Dexamethasone suppression test
- Diabetes mellitus, dyslipidemia, obesity
- Dialysis-related amyloidosis
- Diamond-Blackfan anemia
- Diffusion disorders. Diffusion capacity of the lungs/Repetitorium
- Dilated cardiomyopathy (pediatrics)
- Diseases caused by increased number of erythrocytes
- Disorders of acid-base balance
- Disorders of cerebellar function/Repetitorium
- Disorders of glucose metabolism/Questions and case studies
- Disorders of iron metabolism
- Disorders of lipid metabolism/Questions and case studies

- Disorders of myelination/Repetitorium
- Disorders of uric acid metabolism / Questions and case reports
- Disorders of uric acid metabolism/Questions and case studies
- Disorders of water and electrolyte balance (signpost)
- Distribution width of platelets
- Distributional shock (pediatrics)
- Distributive shock
- Diuretics
- Dysarthria
- Dysbalance natria (pediatrics)
- Dysproteinaemia

E

- Ectopic erythropoietin production
- Effect of drugs on heart rhythm
- Effects of poisons on heart rhythm
- Effects of temperature on the organism
- Electrocardiogram manifestations of disturbances of impulse generation and conduction
- Embolism
- Endothelin
- Epicrisis
- Epilepsy and epileptic seizures/Repetitorium
- Erythrocytosis
- Erythropoietin deficiency anemia
- Esophageal Varices
- Essential thrombocythemia
- Etiology
- Portal:Exam Topics in Pathophysiology (1LF, GM)
- Examination for thyroid diseases
- Examination of bleeding
- Examination of Blood Gases
- Examination of concentration ability of the kidneys
- Examination of glomerular filtration
- Examination of kidney function
- Examination of pulmonary diffusion and perfusion
- Examination of the concentrating ability of the kidneys
- Examination of the Thyroid Gland
- Extracorporeal hemolytic anemia
- Extrasystole
- Eye examination

F

- Fanconi's syndrome
- Fats in diet
- Fechtner-Epstein syndrome
- Flap defects / Repetitorium
- Fluorine
- Focal segmental glomerulosclerosis
- Functional examination of the kidneys

G

- Gastroduodenal ulcer disease
- Gastroscopy
- Gene expression disorders / Questions and case reports
- Gene expression disorders/Questions and case studies
- Gestational cardiomyopathy
- Glomerular filtration rate
- Glomerulonephritis
- Goodpasture Syndrome
- Graves-Basedow disease
- Growth hormone

H

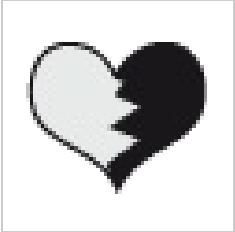

- Haemocoagulation versus anticoagulation
- Haemorrhagic tendency examination
- Heart failure (internal)
- Heart failure (pathology)
- Heart failure/Repetitorium
- Heart murmurs
- Heart rhythm disorders
- Hematocrit

- Hematocrit
- Hemochromatosis
- Hemocoagulation
- Hemoglobinopathies
- Hemolysis
- Hemophilia
- Heparin
- Hepatic encephalopathy
- Hepatic Failure
- Hepatomegaly
- Heparidin
- Hereditary disorders of amino acid metabolism / Questions and case reports
