

# Cubital Canal

It is the passage between the caput ulnare and the caput humerale m. flexoris carpi ulnaris and continuation of sulcus nervi ulnaris. In the *canalis cubitalis* n. ulnaris.

## Delimitation of the entry of the nerve into the canal:

- **medially:** aponeurosis m. flexor carpi ulnaris;
- **laterally:** ligamentum collaterale ulnare;
- **ventrally:** epicondylus medialis.
