

Template:Box

Subtemplate

This is a page containing a subtemplate. It is intended only for use in other templates, not for insertion into articles.

This subtemplate helps with creating templates using a box.

Template insertion

Insert this code into your new template, delete unnecessary parameters and the remaining parameters fill in.

```
{{Box
|type =
|color =
|image =
|title =
|text1 =
|text2 =
|text3 =
|text4 =
|text5 =
|text6 =
|text7 =
}}
```

Description of the parameters

- **type** – Specifies the size of the box. There are two possibilities: the default *standard* and optional *mini*.
- **color** – You can insert hexadecimal code (e.g. *#FFFFFF* for white) or English name of the color (e.g. *white*).
- **image** – Insert the name of your image followed by its file extension (e.g. *Logo.jpg*).
- **title** – The title of the template will be displayed bold and bigger.
- **text1**, **text2**, **text3**, **text4**, **text5**, **text6** – Basic text displayed in standard characters (if you do not format them).
- **text7** – Smaller text at the end of the template.

All setup parameters are optional.
